

VICTORY Stress

Release Notes

11/30/11

RELEASE NOTES

VERSION 1.5.8

NEW FEATURES

- Model estimating mobility enhancement factors in 2D

ALTERATIONS AND ENHANCEMENTS

- New materials and elasticity properties to material database

VERSION 1.5.7

NEW FEATURES

- Directional anisotropic model of intrinsic stress

VERSION 1.5.3

NEW FEATURES

- Boundary load method for stress simulation after oxidation

VERSION 1.5.0

NEW FEATURES

- Anisotropic elasticity model for crystalline materials
